To the Members of the Development Committee and Intergovernmental Group of Twenty-Four on International Monetary Affairs

Your Excellencies,

I refer to my letters dated September 29, 2016, April 11, 2017, and October 13, 2018. I have attached a copy of the letter dated October 13, 2018 for your ready reference. I also refer to my meetings with H.E. Arun Jaitley, India's Minister of Finance & Corporate Affairs, and with H.E. Goodall Gondwe, Malawi's Minister of Finance, Economic Planning and Development on October 8th during the 2015 Annual Meeting in Peru.

I have reported my subsequent telephone conversation with H.E. Goodall Gondwe in my social media as follows:

India's Minister of Finance... was one of the 20 or so delegations whom I met with at the World Bank's Annual Meetings in Peru on October 8, 2015. I have already followed up with H.E. Goodall Gondwe, whose business card mysteriously appeared on my desk. ... For example, last week someone from the coalition put the business card for Malawi's Minister of Finance, H.E. Goodall Gondwe, on my desk. I met with H.E. Goodall Gondwe in Lima Peru on October 8, 2015, but I no longer had the business card which H.E. Gondwe gave to me in 2015. My file containing business cards was stolen from my home office a couple of years ago.

I was able to call and email H.E. Gondwe after discovering his card, and I reported this contact last [year]:

I tweeted about the fact that countries are invited to negotiate the Monetary Agreements to access their monetary gold reserves held by the Global Debt Facility.

We have all been aware for some time that things are happening that are out of the ordinary.

There have been many comments on the last two videos that I uploaded on YouTube. YouTube is attempting to censor the videos by lowering the sound. This backfires, as it reinforces the message that the Banking Cartel has something to hide. After YouTube broke the link for my response, I am attaching the document where I explained how the Banking Cartel has stolen the title to our property

<https://s3.amazonaws.com/khudes/Twitter9.16.18.pdf> I see YouTube broke the link, so I am going to tweet this now. We are going to work together during the Global Currency Reset to fix this problem. Your question is going to be answered as we decentralize and have a vision of a much less corrupt world . Trying to fix a fundamentally unjust system that came into being over centuries is going to take time, and most importantly, we are going to have to get used to harmony in our world.

David Malpass is interfering with the Global Currency Reset to end the corruption in the world's currencies.

To the Members of the Development Committee [and Intergovernmental Group of Twenty-Four on International Monetary Affairs]

Your Excellencies,

I refer to my letters dated September 29, 2016 as updated on April 11, 2017. A growing public is aware that the Network of Global Corporate Control (identified by Vitali, Glattfelder, and Battiston of ETH Zurich http://arxiv.org/PS_cache/arxiv/pdf/1107/1107.5728v2.pdf) is insolvent and in receivership inside the Global Debt Facility containing the world's international monetary gold reserves. The Network of Global Corporate Control has lost the ability to block reality from view.

In accordance with the agreements at the Annual Meetings in Peru in 2015

<https://s3.amazonaws.com/khudes/Twitter2.8.16.2.pdf>

the United States government remains in interregnum, and I exercise the voice and vote of the US representatives on the Board of Governors and Board of Executive Directors of the World Bank and IMF until the Constitution of 1789 is reinstated pursuant to the provisions of Article V thereof. I am providing copies of this correspondence to the New York and Tokyo Embassies, and posting this on the internet. A critical mass understands that the coalition for the rule of law on the Boards of Governors administers the wealth of the nations in the Global Debt Facility. The latest segment on DCTV aired and was archived on the internet.

<https://s3.amazonaws.com/khudes/dctvteleprompt4.17.18.pdf>

<https://youtu.be/pXqGkGRinCM>

Jim Kim and Christine Lagarde acted outside of their official capacities by disregarding Article V, Section 2(a) of the IBRD's Articles of Agreement, which provides: "All the powers of

the Bank shall be vested in the Board of Governors," and Article V, Section 5 which requires those officials to respect the international character of my duty, and obligates them to refrain from all attempts to influence me in the discharge of my duties. Accordingly, Jim Kim and Christine Lagarde no longer serve as the President of the World Bank and Managing Director of the IMF. The Secretariats of the World Bank and IMF have lost their legitimacy. These organizations are going to be brought into compliance in due course, as the Global Currency Reset gains purchase.

The commercial lien went into effect on Sandie Okoro:

As agreed during the (2015) World Bank and IMF Annual Meetings, these arrangements on behalf of the Global Debt Facility are authorized by the countries copied on this email, unless they register their dissent in writing."]

The Commonwealth is also in interregnum, following revelations about a different monarch for the throne of England residing in Portugal. www.thehiddenkingofengland.com

It is now time to bring the gold out of sequestration. The members on the Board of Governors of the World Bank and IMF and Ambassadors received my letter dated March 25, 2015 containing the offer to replace fractional reserve fiat currencies in a Global Currency Reset <https://s3.amazonaws.com/khudes/Alternative+to+WWIII.pdf> This offer stands. The Federal Reserve Bank will be required to offset country debt with the 2 quadrillion the Fed owes on its Treaty of Versailles Bonds.

We have remained at a fork in the road: WWIII or the Global Currency Reset. Starting off with Ferdinand Marcos' prayer to the United States 13:40-14:40

<https://www.youtube.com/watch?v=sstf3ueOfeU&app=desktop>:

"For I know that as I have said in many a speech before my own people and before the world, fate and destiny have decreed that the United States of America be the trustee of modern civilization against the threat of a possible second Dark Ages. And America cannot fail. Therefore, we the Filipino people come and bring to you a prayer: God in his divine providence may grant you guidance and strengthen both your heart and hand so that hand may be strong on the lever of power and save our humanity. If America fails, then the world is lost."

A well-informed group in America, including the loyal military who have been working together with the Joint US Japan Committee under the Status of Forces Agreement, is ready to join with the coalition for the rule of law on the Board of Governors that was predicted by

the power transition model that came to the World Bank from the US Department of Defense in 2004. <https://s3.amazonaws.com/khudes/sentia+model.pdf>

Aaron Broches, who helped to write the World Bank's Articles of Agreement as a young counselor in the Dutch Embassy, went on to serve between 1959-1978 as the longest serving General Counsel. Aaron Broches was my mentor for many years. The General Counsel's most important function is to provide a proper interpretation of the Articles of the World Bank in giving voice to the Board of Executive Directors and Board of Governors.

Sandra Okoro has been relieved of her position as Senior Vice President and General Counsel of the World Bank Group; <https://s3.amazonaws.com/khudes/Twitter3.17.17.2.pdf> ; Ousmane Diagana has been relieved of his position as Vice President for Human Resources <https://s3.amazonaws.com/khudes/Twitter6.16.18.pdf> , <https://s3.amazonaws.com/khudes/Twitter6.22.18.pdf>

not a single mission or embassy has defended either of them; nor did a single country object to the discharge of Christine Lagarde or Jim Kim or Ousmane Diagana or any of the other misguided officials in the Secretariat. These agents of the Network of Global Corporate Control have defied the decision of the Board of Governors of the World Bank and International Monetary Fund to place the Network of Global Corporate Control in receivership in the Global Debt Facility in a Global Currency Reset. The agents of the Network of Global Corporate Control are bankrupt or about to be bankrupt under commercial liens held by the Global Debt Facility. <https://s3.amazonaws.com/khudes/scano013.pdf>

The best way to have the people in the countries hold accountable the people administering the exchange, these are questions that can be answered for each country. One difficulty is that we do not yet have reliable staff . We can hire this staff, and the Board of Executive Directors of the World Bank has already approved administrative expenses. The issue is the Banking Cartel's security guards are still refusing to admit me to the World Bank's offices. Ousmane Diagana, the Vice President for Human Resources, who is not following the World Bank's Articles, has already had his employment at the World Bank terminated. Do all the staff at headquarters need to be discharged until they follow the directives of the Board of Executive Directors and Board of Governors?

<https://s3.amazonaws.com/khudes/dctvteleprompt10.9.18.pdf>

I revealed the WBG's corporate governance problems during my interview for the position of the World Bank's General Counsel in May 2006. Two months after assisting the Senate Committee on Foreign Relations during confirmation hearings for the World Bank's Executive Director, I was fired in retaliation. Svein Aass, Norway's ED and Chair of the Board's Governance Committee, reinstated me with the concurrence of Eugene Miagkov, Russia's Alternate ED. My bondholder litigation, brought to resolve corporate governance problems, was settled by the Board of Governors in 2012. President Obama's nominee for the Supreme Court, Merrick Garland, was on the Panel that disregarded the Board's settlement of my case. Neil Gorsuch is also bankrupt under a commercial lien held by the Global Debt Facility.

<https://s3.amazonaws.com/khudes/Gorsuch3.pdf>

Brett Kavanaugh is also about to be bankrupted under a commercial lien held by the Global Debt Facility; Kavanaugh has failed to respond to two notices:

<https://s3.amazonaws.com/khudes/Twitter10.5.18.1.pdf>

I informed Mr. David S. Ferriero, Archivist of the United States National Archives and Records Administration, that as the US. Congress has suspended the Constitution of 1789 by declaring a state of emergency (<http://www.criminalgovernment.com/docs/emer.html>), the provisions concerning the electoral college process [see <https://www.archives.gov/federal-register/electoral-college/provisions.html>] do not apply. Neither do the statutes governing the electoral process, which provide that electors shall vote for President and Vice President, respectively, "in the manner directed by the Constitution." Most importantly, I informed Mr. Ferriero that in order to prevent WWIII, the Board of Governors has agreed that the monetary gold reserves of the United States in the Global Debt Facility are being deployed to enable the United States to fulfill its treaty obligations in the defense Germany and Japan.

<https://s3.amazonaws.com/khudes/Twitter10.31.16.1.pdf>

As previously set forth in minutes of the Development Committee, the Global Currency Reset is replacing paper currencies issued by the Network of Global Corporate Control for national currencies minted from the monetary gold reserves of the nations. Local currencies issued by villages and towns are also replacing the corrupt fractional reserve fiat currencies issued by the Network of Global Corporate Control

The corrupt martial law regime in the United States has been exposed

The Network of Global Corporate Control has been trying to prevent the Board of Governors from deploying the world's monetary gold reserves. As agreed during the 2015 Annual Meeting in Peru, and subsequently confirmed with the Development Committee, New York Missions and Tokyo Embassies, I speak on behalf of the Board of Governors on matters concerning the Global Debt Facility.

The Network of Global Corporate Control and the members of the World Bank and International Monetary Fund do not hold monetary gold reserves. These are in the Global Debt Facility, after having been deposited by Jose Rizal on January 3, 1949.

Statement of Karen Hudes for the Development Committee on Behalf of the United States¹

4/13/2019

WASHINGTON - We are at a fork in the road for the Bretton Woods institutions. On January 3, 1949 José Rizal placed the world's monetary gold reserves and other asset commodities in trust as a gift of love, to be returned to humanity by the Board of Governors of the World Bank and IMF at the end of 50 years of sequestration.² The world's peoples and nations agreed to this gift of love. The terms of the trust are spelled out in the Bilateral Minesfield Breakthrough Successor Agreement.³ The gift of love prevents World War III and another Dark Ages.

Harry Truman and Dwight Eisenhower accepted these terms on behalf of the people of the United States of America, and other nations are similarly bound by this sacred treaty. At the inaugural meeting of the Board of Executive Directors of the World Bank in 1946, the Governor for the United States of America reassured the other nations that the Bretton Woods institutions would respect the other nations' property in this trust by ensuring that it was up to the Board of Executive Directors to interpret the Articles of Agreement of the World Bank.⁴

As a lawyer in the World Bank's legal department for twenty years, when the Articles of the World Bank were violated, I reminded the Board of Executive Directors that they were responsible for interpreting the Articles of Agreement. My efforts to reassert the rule of law at the Bretton Woods institutions were played out on the world stage after I bought a World Bank bond and sued in the US federal court system.

The Board of Governors has made me the Overseer Mandate Trustee of the trust containing the world's monetary gold reserves and other wealth. At the Annual Meetings in Lima, Peru in October, 2015 twenty delegations agreed that I speak on behalf of the Board of Governors on matters involving the world's monetary gold reserves and other wealth, and that any nation who disagreed would record their dissent in writing. The New York Missions and Tokyo embassies have confirmed this arrangement. This has enabled me to invalidate any and all attempts to disinherit the world's peoples as beneficiaries of the trust bequeathed to all of mankind as a gift of love:

Delivering the Global Currency Reset

The fractional reserve fiat currencies oppress and exploit humanity, only for the benefit of a Network of Global Corporate Control. This Network of Global Corporate Control has come into view, when secrecy was what the Network required in order to continue its agenda of sowing dissension and hatred among the peoples. The Board of Governors has placed this Network of Global Corporate Control into receivership, and has authorized liens to be placed against the entire Federal Reserve System, including Illinois. In order for the Global Currency Reset to proceed in an orderly and transparent manner, amnesty from punishment will be granted. This does not mean amnesty from opprobrium. This does not mean a guarantee of continued employment.

Strict adherence to the Articles of the Bretton Woods institutions, and the respective roles of the Board of Governors, Development Committee, Boards of Executive Directors, and subservient role of the secretariat must be respected so that the world's peoples can receive José Rizal's gift of love. As a first priority, the capture by the Network of Global Corporate Control of the WBG's and IMF secretariats must be reversed. The Board's Drysdale Committee on Human Resources Management has already prepared a workable action program to guide the way forward. Achieving our global development goals is only possible if we successfully address this challenge.

We encourage close coordination and cooperation with the Asian Infrastructure Investment Bank in working together in the transition to national currencies minted from the nations' monetary gold reserves and local currencies introduced in the villages and towns. The importance of the WBG working effectively with other international financial institutions cannot be overstated. When the rule of law in the Bretton Woods institutions is observed faithfully, collaboration and cooperation can be readily attained.

Responding to Discoveries of Assets owned by the trust for the benefit of humanity

The Board of Executive Directors and the Board of Governors are empowered under the Articles of Agreement of the WB and IMF to deal with issues arising in the Global Currency Reset in a transparent manner. This will include the distribution of assets such as the Kohinoor Diamond, the Amber Room, and other art treasures that have been located. The Development Committee also has a constructive role to play, as it works through the details in the Letter of Intent agreed with the Governor of the Central Bank of Taiwan and with YCT Corporation.⁵ Prospects for growth will improve dramatically as new technologies on energy, health, and transportation are released. With an end to legal tender laws in the Global Currency Reset, local currencies will also stimulate growth in employment and shared prosperity.

For the WBG to have credibility with its clients, the WBG must be held to account for adherence to the rule of law. This means keeping faith with its founders and the terms on which it came into being, and carrying out the sacred mandate with which it is entrusted: José Rizal's gift of love. This means that the secretariat has to be reframed at once in order to respect the terms of the Bilateral Minesfield Breakthrough Successor Agreement, as well as the authority of its member countries.

We stand on the brink of a new tomorrow as we accept José Rizal's gift of love.

⁵ <https://s3.amazonaws.com/khudes/Letter+of+Intent.pdf>

1. The Development Committee met today, April 13, 2019 in Washington, D.C.
2. In this critical year, the international community is emerging from a highly corrupt international financial system. The global economy is in turmoil due to the risk of permanent gold backwardation as fractional reserve fiat currencies weaken from unrestricted quantitative easing. We recall the decision of the Development Committee at the 2014 Spring Meeting to exchange fractional reserve fiat currencies for currencies minted from the international monetary gold reserves deposited by José Rizal in the Global Debt Facility as an act of love.
3. The Development Committee calls on the World Bank Group (WBG) and the International Monetary Fund (IMF) as an interim measure until gold currencies can be minted, to assist in the exchange of fractional reserve fiat currencies issued by the Bank for International Settlements for currencies issued by the country Treasuries . Certificates of exchange will need to be issued to residents and the appropriate ceilings established for the amount of currency that each individual may receive. This is in preparation for the ultimate exchange of paper Treasury currencies into national currencies containing gold from the Global Debt Facility.
4. The WBG and IMF are encouraged to assist member countries account for national indebtedness in preparation for debt being offset against the Treaty of Versailles bonds held in the Global Debt Facility that is administered by the Board of Governors. The private banks are in receivership in the Global Debt Facility, and will be resolved in the Global Currency Reset.
5. As local communities start to work themselves free from the secret domination and control that has plagued mankind from time immemorial, there are many lessons to be learned from the grassroots in order to benefit from José Rizal's gift of love. Local communities are transitioning to local currency, as legal tender laws that are against common and natural law are unenforceable. We call on the WBG and the IMF to support community efforts to transition to local currencies in villages and towns.
6. Now that the sequestration of the world's monetary gold reserves is ended, and in line with the Board of Governors' and the International Bank for Reconstruction and Development Board of Executive Directors' original mandates, the June 4, 1947 Memorandum with Regard to Organization and Loan Procedure is no longer applicable. We expect the WBG and the IMF to take direction from the Board of Governors and the Boards of Executive Directors, as mandated under the Articles of Agreement of the WBG and IMF. The Development Committee provides necessary oversight in the Global Currency Reset on behalf of the Board of Governors.
7. The Board of Governors will authenticate each and every disbursement from the Global Debt Facility. Claims over the ownership of the assets in the Global Debt Facility have all been extinguished by passage of time and the statute of limitations. Accordingly, each and every dispute, including claims of right of ownership in the assets of the Global Debt Facility in the South China Seas that have not been authenticated by the Board of Governors have no standing. The Development Committee will resolve peacefully, as intended, the allocation of assets in the Global Debt Facility upon the principle that no nation or people has right of claim in precedence over any other.

8. We ask the Boards of Executive Directors of the WBG and IMF to direct their efforts in strengthened oversight. For this to happen, we require an audit of the financial statements of the International Bank for Reconstruction and Development and the International Finance Corporation in accordance with Generally Accepted Accounting Principles. The conflicts in the Administrative Tribunal, whereby judges are given arbitration contracts from the International Centre for the Settlement of Investment Disputes, are to be brought into the sunlight, and resolved, with affected staff made whole. Other parts of the Conflict Resolution System are to be brought into compliance with a robust system of internal controls. The Institutional Integrity Department, which has a proven record that is counterproductive and at cross purposes to strengthened internal controls, is no longer required. During the Global Currency Reset, the human resources function of the WBG and IMF will report directly to the Boards of Executive Directors in accordance with the recommendations of the Drysdale Committee.

9. Looking ahead, there are many challenges for the WBG and the IMF to regain credibility. It is incumbent on the WBG and IMF to become more accountable and restore the confidence of the international community. This will be facilitated through learning from the grassroots and encouraging other international actors, including the African Development Bank, Asian Development Bank, European Bank for Reconstruction and Development, European Investment Bank and Inter-American Development Bank to do so as well. The WBG needs to be open to new chronology and history of the ancient and medieval world, corrected climate data, free energy, and other censored information

10. We ask the WBG to strengthen collaboration to promote South-South cooperation and to be receptive to boost shared prosperity in a sustainable manner.

11. The next meeting of the Development Committee is scheduled for October 19, 2019 in Washington, DC. (last year's statements at the Annual and Spring Meetings were placed on the internet, and mailed to the Washington Embassies of the Development Committee members. subject: Spring Meetings of the World Bank and IMF

<https://twitter.com/KarenHudes>,

<https://www.facebook.com/karen.hudes.10/>

On Tuesdays at 7:00 pm EST

<http://dctv.org/Live>

<https://www.youtube.com/user/KarenHudes>

A screenshot of the KAHUDES website. At the top, there is a navigation bar with links for Home, About Us, Case in US District Court, Case in Court of Appeals, Contact Us, and a search bar. Below the navigation bar, the page title is "World Bank Stakeholders". There are five thumbnail images with corresponding labels: "Board of Governors" (a group of people at a conference table), "US Congress" (the US Capitol building), "Auditors" (a close-up of a calculator displaying "6724"), "Media" (a person holding a microphone), and "The National Advisory Council for International" (a large classical-style building).
